Application for Bursaries in Personal Totem Pole Process Training.

The goal of the Bursary and Scholarship Fund is to expand the use of the Deep Imagery in the world by supporting the training of imagery guides who will use the process within their communities.

The IIVR offers partial monetary grants or bursaries to eligible trainees, depending on available funding. The fund was established to assist individuals who could not otherwise participate in training due to financial constraints. The fund depends on donations for its resources. Therefore, usually, there is not a lot of money available. The usual amount of a grant is between 200 and 500 USD or Euros.

The grant is not paid directly to the applicant. Instead, if the application is approved, the money is paid to the trainer and the applicant receives a discount on the training to the amount of the grant offered. The IIVR office will notify the trainee/applicant as to the amount of the bursary, once the scholarship committee has made its determination.

Applicants will meet the following criteria:

- Be currently participating in a training, i.e enrolled in an ongoing training with a recognized trainer.
- demonstrate financial need or hardship.
- be committed to using Deep Imagery in your community and the world.
- Will commit to writing a follow up testimonial of the training &/or an account of how they are using imagery *within 12 months* of receiving the grant.

Application Requirements:

1. Complete enclosed application form. **All applications should be typed in English.**
2. eMail the complete application to iivr@deepimagery.net, for the attention of the Scholarship Committee. The IIVR office will forward all applications to each member of the committee. You will also receive an email to notify you that your application has been received.
3. An optional interview may be necessary via telephone or internet with the scholarship committee. Be prepared to talk about your desire to bring Deep Imagery into the world as well as your experience as a trainee. The committee will ask your trainer to provide a description of your experience during training.

Procedure

Applications are reviewed once a year. Please submit your application *between January 1 and March 31* of each year. Applications outside of those dates will not be considered.

The Scholarship committee will meet after March 31 and review the applications. As it is a voluntary, international committee, it may take a little time for members to coordinate the meeting. Recipients of scholarships will be as to the status of their application, by June 15 each year by the IIVR office. **All decisions by the scholarship committee are final.**

Describe your financial situation and why this grant is required for completion of training. Provide enough detail for us to determine your need.

Describe what this work means to you and why you want to complete training in the Deep Imagery/Personal Totem Pole Process.

Describe how you plan to use this work in your community or the world and your life.

I agree to send the IIVR an account of how I have used Deep Imagery/PTPP* personally or publically, in my community or the world, within 12 months of the scholarship or after completion of my training, whichever is soonest. I will also email a testimonial of the training process to the IIVR office at that time. (iivr@deepimagery.net)I agree to the use of these items by the IIVR, where ever they are deemed as best suited.

* This is an account of actual use, work completed, rather than the future plans outlined earlier.
